Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: What happened to our freedom of choice?  
Any prescription needs a doctors order! My doctors  
have been very obliging to my individual needs.  
I do not want to take synthetic drugs.  
Womens Health does individual testing along with  
Madison Pharmacy compounding to my special needs.  
They also follow-up with testing to be certain I'm  
not getting to much. The drug companies are finally  
realizing that consumers are wanting to be able  
to make alternative choices.  
Please let us do so.
